---

## PROFESSIONAL SUMMARY

Computer Science & Engineering student with strong interest in Artificial Intelligence, Data Science, Machine Learning, Deep Learning, intelligent systems, and game development. Skilled in problem-solving, analytical thinking, leadership, and adapting to emerging technologies with a passion for innovation-driven development. Continuously exploring AI workflows, intelligent computing, modern software engineering, and technology-oriented solutions while building a strong foundation across programming, smart systems, and real-world applications

---

## TECHNICAL SKILLS

### Programming Languages

- Java
- Python
- C
- C++
- SQL

### Technologies & Concepts

- Artificial Intelligence Fundamentals
- Prompt Engineering
- Database Management Systems
- Git & GitHub
- Problem Solving
- Basic Frontend Development

## Soft Skills

- Leadership
  - Communication
  - Team Collaboration
  - Initiative Taking
  - Analytical Thinking
- 

## PROJECTS

### THUNAI – AI Companion System

- Developed “THUNAI,” an AI-powered agricultural assistance system focused on crop recommendation and plant disease detection using Convolutional Neural Networks (CNN) and leaf image analysis.
- Designed the system to assist users in identifying plant diseases and recommending suitable crop-switching strategies for improved agricultural outcomes.
- Designed the project with emphasis on smart assistance workflows and user-oriented AI interaction.

### KOVAI SURGE – Smart Waste Management System

- Developed a smart waste management system featuring real-time tracking of garbage trucks and smart monitoring of dustbin status.
- Focused on improving urban waste handling efficiency through live monitoring and smart system integration.

### Food Ordering & Management System

- Designed and developed a food ordering and management system with functionalities including order handling, menu management, and database integration.
  - Focused on efficient workflow handling and user-friendly system design.
- 

## CERTIFICATIONS

### Infosys Springboard Certifications

Completed multiple certification courses under the AI Learning Path and related technology domains.

Key Certifications Include:

- Artificial Intelligence Primer Certification
- Deep Learning for Developers
- Introduction to Data Science
- Introduction to Natural Language Processing
- NumPy and Pandas Python
- Prompt Engineering
- Agile Scrum in Practice
- Database Management System

## Hackerrank Badges & Certifications

Earned a **5 Star Gold Badge** and **Rank 1** in *Python* and Completed **Certifications** in:

- Python Basics
- Java Basics
- Problem Solving Basics
- SQL Basics

---

## EDUCATION

Kumaraguru College of Technology

Bachelor's Degree in Computer Science & Engineering  
Coimbatore, Tamil Nadu

**CGPA: 8.48**

Expected Graduation: 2028

---

## ACHIEVEMENTS & ACTIVITIES

- Actively involved in AI-focused learning and development activities.

- Built multiple technology-orientated academic and personal projects.
  - Strong interest in intelligent systems, software engineering, and smart automation solutions.
  - Continuously exploring emerging AI technologies and modern development workflows.
- 

## ADDITIONAL INFORMATION

- Languages Known: English, Tamil, Hindi
- Interests: Artificial Intelligence, Software Development, Gaming Technology, Smart Systems
